MUSEUM ETIQUETTE:

- Do not touch objects in the museum. Try to stand an arm's length away when looking at objects. Sometimes it helps to put your hands behind your back or in your pockets. Objects in a museum are very special and even the smallest fingerprint could damage them.
- Make sure to walk and use your inside voice. The museum is a peaceful place.
- Check coats and bags in the coatroom. It's easy to bump into things without knowing.
- Ask before taking photographs. Different museums have different policies about taking pictures in the galleries.

ANY FEEDBACK?

Visit our website at www.projectqualitytime.org and complete a brief survey. Your feedback is very valuable and will help us continue to expand and improve our program. Each completed feedback form will automatically enter your child in a drawing to win art supplies. Two winners will be selected each month. Thank you to **Crayola** for donating the prizes.
